# Jayesh Gour

Harda, Madhya Pradesh
+91 9494298735 Gourjayesh47@gmail.com Jayesh-Gour jayesh-gour

## Education

**University of Hyderabad** **August. 2024 – July 2026**
*Master of Computer Applications* *Hyderabad, Telangana*

**Devi Ahilya Vishwavidyalaya** **July. 2021 – June 2024**
*Bachelor of Science (Computer Science)* *Indore, Madhya Pradesh*

## Relevant Coursework

- Data Structures and Algorithms
- Database Management Systems
- Operating Systems
- Machine Learning
- Web Development
- Deep Learning

## Projects

**Gwen - Local-First Personal AI Assistant** **Oct 2026**
*Python, Google ADK, Ollama, FastAPI, PostgreSQL, SQLAlchemy, ChromaDB, Streamlit*

- Built a local-first AI assistant using Google ADK and specialized LLMs (Granite 4.2 3B and Qwen3 4B) for general and technical query handling.
- Implemented LLM orchestration and model routing to break user requests into structured tasks and manage sequential execution with dependency handling.
- Developed long-term memory using PostgreSQL and SQLAlchemy, alongside a RAG pipeline using ChromaDB and nomic-embed-text for personal document retrieval.
- Integrated tools for calculations, weather, and web search, with a FastAPI backend and Streamlit interface for conversational interaction.

**Momentum AI - AI Accountability Coach** | *FastAPI, SQLAlchemy, SQLite, Gemini, Streamlit* **August 2026**

- Built a full-stack accountability app with goal-setting onboarding, daily journaling, and AI-generated day-over-day progress feedback.
- Designed a relational schema (User, UserProfile, DiaryEntry) using SQLAlchemy with foreign keys, relationships, and cascade deletes.
- Integrated Google Gemini to generate productivity breakdowns and motivational, non-judgmental suggestions from entry history.
- Implemented multi-page navigation in Streamlit via session-state routing across login, onboarding, dashboard, and analysis views.

**Prescripto - Smart Healthcare Appointments** | *React.js, Node.js, Express, MongoDB, Tailwind CSS* **May 2026**

- Built a full-stack healthcare web application using React, Node.js, Express, and MongoDB to streamline patient–doctor appointment booking.
- Designed a responsive frontend for viewing doctor availability and booking appointments with ease.
- Implemented authentication with role-based access control and developed RESTful APIs using Express.
- Managed end-to-end booking flow and designed MongoDB schemas for users, doctors, and appointments.

## Technical Skills

**Languages**: Python, Java, JavaScript, SQL, C

**Frontend & Backend**: FastAPI, REST API, Pydantic, Node.js, Express.js, React.js, Streamlit, HTML/CSS

**AI & LLM**: Google Gemini API, Ollama, LLM Orchestration, RAG, Prompt Engineering, Google ADK

**Databases & Retrieval**: PostgreSQL, MySQL, SQLite, MongoDB, SQLAlchemy, ChromaDB

**Data Analysis & Tools**: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Git, GitHub, Linux

## Achievements / Extracurricular

- Secured an All India Rank of **845** in **NIMCET 2024** (National-Level MCA Entrance Exam). View Certificate
- Certified in **Artificial Intelligence - AI My Job Grow** (Online) by **IIT Bombay**. Certificate
